Address	Ambachtsweg 14 9820 Merelbeke België

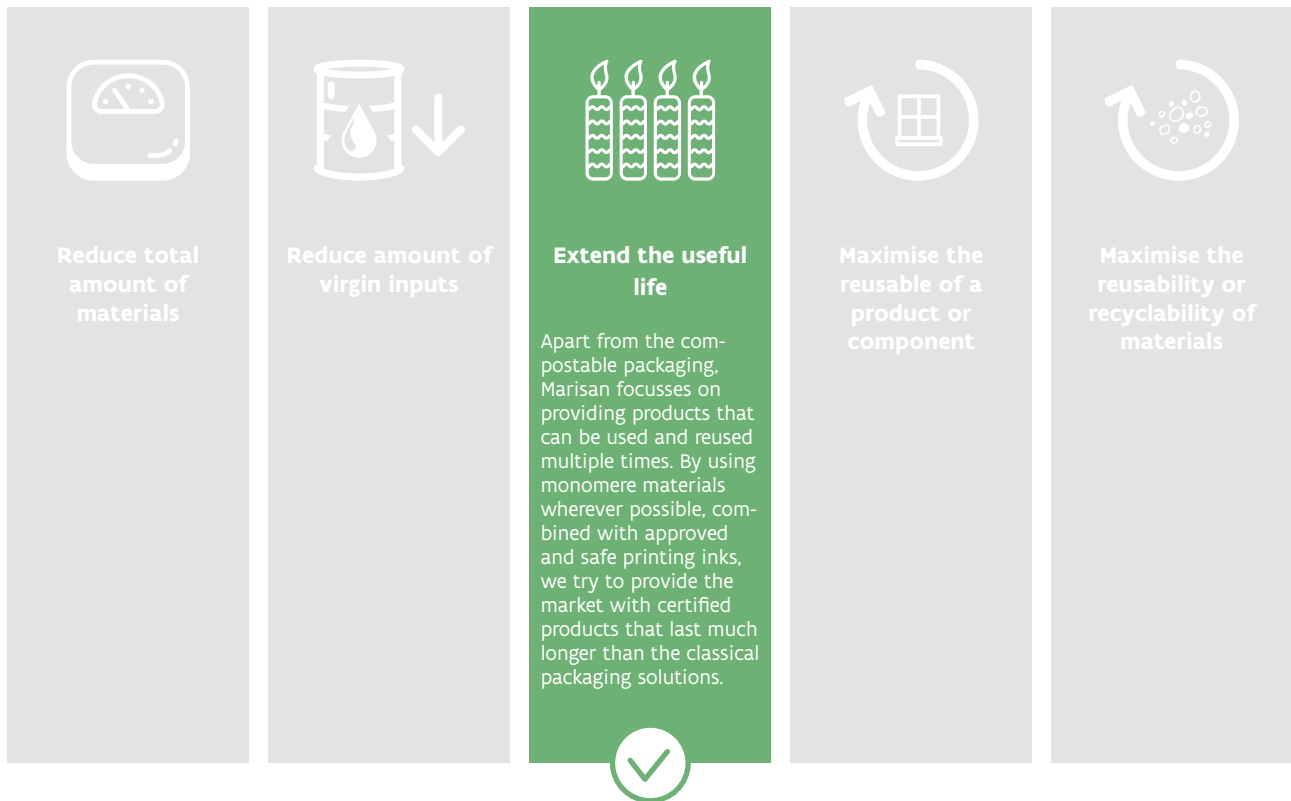

SHORT DESCRIPTION OF THE OFFERING

We offer reusable packaging and bags, to extend the life of that packaging and to allow multiple uses before end-of-life. Besides that we also offer BPA free labels and recycled wash care tags.

WHY IS IT CIRCULAR?

Marisan provides circular packaging to the textile and retail market, based on reusable materials. This way we want to help our customers to use packaging solutions that are usable for multiple use. The use of monomeric materials is a key element to make the bags recyclable by EOL.

WHICH STRATEGIES ARE APPLIED?

WHAT ARE THE BENEFITS FOR BUYERS?

The benefits for the buyers are multiple. Marisan supplies access to recyclable products and recycled materials, always with a focus on constant quality and competitive pricing.
